ColaLife Pilot Zambia | Indicative skills and participation matrix
January 2011
Version 1.0

DRAFT EXERCISE FOR DISCUSSION

Instructions for this group exercise:

If your group were delivering the proposed ColaLife project, discuss and identify where YOU (personally) consider that your organisation MIGHT contribute, and at which level.

Write the organisation name in the box. You can specify a sub area or detail. You can write more than one organisation. You can add question marks.

Please note where your group identifies any GAP in your collective expertise and experience in relation to the ColaLife project

Note: this is not a commitment but an exploration

	Roles/Tasks												
Area of interest	**baseline data:** supply existing data	**baseline data:** collect new data	**focus group work** in rural communities	**vouchers:** experience in use	**supply chain expertise**	**micro-finance/ credit systems**	**EIC materials,** design and or production	**data collection methods**	**SODIS**	**Social Marketing**	**Packing and/or distribution**	**M & E**	**Dissemina-tion**
We have skills/ experience in this area													
We have data/ intelligence in this area we are willing to share													
We would, in principle, be interested in an implement-ation role in this area													
We would, in principle, be interested in leading in this area.
